

# The Hong Kong Institute of Environmentalists

## 香港環境師學會 (非牟利專業組織)

Dear Members,

I am Dr. Tommy Ho, the founder and founding president of the Hong Kong Institute of Environmentalists (HKIOE). It is very grateful that HKIOE is celebrating 11th anniversary this year. Since establishment, HKIOE has set up 20 chapters, which covers multiple regions or countries, including Macau, Shenzhen, Zhuhai, Guangzhou, Dongguan, Meizhou, Nanning (Guangxi Province), Zhuzhou (Hunan Province), Chongqing, Chengdu, Shenyang, Beijing, Tianjin, Shanghai, Xi'an, Kaohsiung (Taiwan), Cambodia, Singapore, Malaysia and Indonesia.

Thank you to the presidents, committee members and participants of multiple regions or countries. Without your support and encouragement, our conference affairs will never develop sustainably. It all depends on your enthusiasm and desire for environmental conservation and healthy living environment. We continue to promote more diversified lectures and events, such as Young Environmentalists, Green Buildings Competition, badminton charity competition, basketball competition, low carbon hiking, green talk and so on.

Although the epidemic is still under control, HKIOE volunteers have went to Yuen Long, Tuen Mun and Sheung Shui districts to present the Concentric Anti-epidemic Hat to remind the public to fight the epidemic together, protect the environment, be healthy and happy!

Our living environment is constantly polluted, including car exhaust, road noise, littering, cat and dog feces, etc. Reminding the citizens of their civic responsibilities is also the top priority of HKIOE. We are convinced that environmental protection starts at a young age, we have promoted the Young Environmentalists 10 years ago. The schools that have been completed in China include Nanning (Guangxi Province), Meizhou, Zhuzhou (Hunan Province). There are also several schools in Hong Kong. This year, I hope that all schools in Hong Kong will participate in Young Environmentalists to nurture the next generation. The love of the environment can be developed continuously.

Thank you for your support. Wish you all good health and all the best.

Yours Faithfully,

Dr Tommy Ho
