

The Hong Kong Institute of Environmentalists 香港環境師學會（非牟利專業組織）

Dear Members of the HKIOE (HK region),

It is my great pleasure to be the president (Hong Kong region) of Hong Kong Institute of Environmentalists (HKIOE) since 2020. Since established 11 years ago, HKIOE now have around 3500 members worldwide, and we have been closely working with the government, industry and the academics on developing a better environment for our society.

Apart from continuing our effort in protecting the environment through voluntary work, inter-school competition and organizing lectures, we will also be looking for environmental research collaboration with the industries and the government. As an academician, me and other fellow members have been actively involved in various kinds of environmental research such as zero-carbon emission technology, lithium batteries recycling for e-vehicles, biomass energy and utilization, pollution reduction in various industries, etc. We welcome potential collaborators for fruitful discussion.

We will continue to help our members to become more professional in their careers and encourage them to get professional chartered status from related engineering society and institute. We are also seeking to have professional reciprocal scheme of MHKEnv with other well-recognized professional societies. We believe members' competence are the key to the success of HKIOE and the future of Hong Kong.

Thank you for your great support!

Yours faithfully,

Ir Dr. Alex TSANG Chi Wing
